

Al-Sahwa Park

Al Sahwa Park Muscat

23.59133925, 58.248671808439

Al Sahwa Park is considered one of the most elegant parks in Muscat in terms of design. It is located at the crossroads near Al Sahwa Tower, covering an area of 300,000 square meters. It is a group of gardens designed to give each one independence in terms of geometric shape and type of plants used in each, with a focus on linking these gardens into an engineering system inspired by elements of Islamic architecture. It is surrounded by a green fence to highlight its aesthetic value and view its contents from nearby roads. In the middle of the park is a circular courtyard called Al Sahwa Square, which was specially designed to be the most important attraction in the park. In addition, it is equipped with all the basic services necessary for a park, such as paths, rest areas, various aesthetic elements, and various games for adults and children. Al Sahwa Park is considered one of the tourist projects in the Muscat region. The beauty of its design and the diversity of its components allow you to experience enjoyable moments with the breathtaking views that delight the soul to see.
